

The Black and White Event Company

Conference Stimulus

African Drumming - Welcome...here teams will experience the skills and power of group drumming. They will learn to play, listen and react as one voice. Using big hand signals and tonnes of energy, our Drum Masters will take each team on a rhythmical journey using rhythms from all over Africa.

Haka - The ancient tribal dance of Maori Warriors... (Now most known in Rugby) this New Zealand dance was originally done by women & men before engaging in battle.

Delegates will be bowled over by a performance from our 7' ex-SAS Maori and his team... before releasing themselves to the power of HAKA. Complete with tribal face paint, our teams' only battle will be to learn & enjoy this powerful vocal dance

America's – Junk Funk - This is, of course, the famous marriage of street dance and urban percussion, fresh from the streets of New York. Led by a team member in our version of 'STOMP', we find our teams donning the orange road vests and picking up their junk percussion....ready for the challenge ahead.

Foot tapping, broom bashing, bin trashing...unique challenges face our teams here. This routine using fast feet and bizarre household items is never as easy as it looks! The end result however, is always hilarious fun.

Tubular Tunes - Delegates enter the room to discover a serene environment...with candles and low light; we begin this area with a traditional welcome. Then, in a blaze of colour, energy and lightning-fast reactions, this area fuses the melody and harmony with your event.

Based originally on different length bamboo-like sticks being struck on slabs of rock...the more modern version use brightly coloured tuned tubes that produce fabulous music.

Clap Happy - Think of all the things you could do with your hands...then add rubber!

This short sharp icebreaker instantly adds energy and colour to any size group. With no set up/break down or extra space needed...each delegate adorns their rubber gloves ... and off we go. A hilarious spectacle using teamwork, rhythms and some magic!
